MC Farms Status 7 Nov 2002

- **Running p11.13.00 on remote farms**
  - ➔ 2.5 M mcp11 events generated in October
  - ➔ Using request system and automated queues – mostly working well http://www-d0.fnal.gov/computing/mcprod/.
  - ➔ Not quite at full capacity yet, more farms coming on line
- **p13.01 and p13.02 certification samples run on farms**
  - ➔ Waiting on OK from simulation group before installing on farms
  - ➔ Probably p13.03 for MC running
- **Metadata**
  - ➔ Testing fixes for storing by-group information
- **Start testing Trigsim in next week.**
